---

Mr. Grisham,  
I requested a key from Mckesson and on Thursday, October 27, 2011, I received the enclosed letter from their attorney. CAS

Hi Carlos,

Any more you can do on this please?

I'm going to Arkansas after our meeting on the 9th of November; can you authorize my replacing the lock on Arkwood with one of my own? I will immediately send a key to Mescher if you permit me to take this action.

Thank you,

Curt

Carlos,

I have heard nothing more about the key. Can we cut the lock and replace it with our own, as you said we could when you and I spoke before you sent the

below to Mescher?

Mescher's unresponsiveness to your request is a prime example of her obstructing progress at Arkwood. The owner stands to lose a prospective industry occupant for the revitalized Arkwood site because access to the site is denied the owner by McKesson/ Mescher.

Thank you,  
Curt

Please provide a key to Mr. Grisham so that he can have access to the Arkwood site. Mr. Grisham needs access to conduct general site visits. The soil/surface cleanup at the site has been completed and there should not be concerns with potential exposure to site contaminants. Thanks CAS
